

▶ Pyong Pyong with Doremi

Line up the sound plates and cross the top like a stepping stone to make a sound. (Air pressure)

The side is sloping, so it is difficult for the plate to tip over even if you step on the edge.

Set contents	8 sound plates
Size	Diameter about 30cm x thickness 4cm
Material	EVA sponge

▶ Wakuguri Tunnel

It is assembled horizontally and used for the wakuguri competition of the athletic meet.

It can also be used in tunnels by forming a head or zigzags.

It can be reinforced by connecting it with an assembly type and a hook-and-loop fastener.

- Because it is combined with a floor mat, it can be used without knee pain.
- Surface embossing that is hard to get dirty
- Made of soft and safe EVA sponge

Set contents	Main body, hook-and-loop fastener
Size	1 pair mat 60cm x 60cm height 60cm (when assembled) hole 45cm
Material	EVA sponge

日本製造

▶ Colorful fluffy mirror

It is a soft and safe mirror made of sponge.

You can connect it using free Velcro tape.

The mirror uses a resin mirror, so it won't break even if you step on it from above.

You can freely assemble a three-sided mirror, a mirror room, etc.

Size	41cm x 41cm x thickness 3cm
Material	EVA sponge, P · P mirror, free Velcro tape
Weight	About 700g (1 piece)

▶ Music Baton

You can make the sound by holding the baton and lowering it upside down or down.

Electricity and batteries are not used.

The scale is made by the air pressure caused by the movement of the weight in the baton.

2003 Nara Good Design (People-Friendly Design Award) Award

Set contents	8 batons, 1 base
Size	1 baton diameter 4.4cm x length 40cm
Material	EVA sponge, ABS resin

▶ Soft tobibako

It is a tobibako and sports equipment made of soft material.

3-stage joint type, the combination is a hook-and-loop fastener.

The back side is non-slip.

You can challenge from a lower level according to your level.

Set contents	3-boxes and 1 stepping stone
Size	Width 44cm x depth 64cm Height [3 tiers] 50cm [2 tiers] 34.5cm [1 tier] 18cm
Material	Urethane foam (middle material), nylon ox (cover)
Weight	13.6 kg

▶ Soft darts

It is a dart that is played with a soft hook-and-loop fastener.
There are two types of targets, both on the back and on the front, and you can play different games, each.
The pedestal is assembled and does not take up space during storage.
It can also be used in toss target games by placing the target on the floor.

Japan Recreation Association Recommended Equipment

Set contents	1 (different back and front pattern), 1 pedestal, 4 arrows (1 each of 4 colors)
Size	60cm x 60cm x thickness 1.6cm (target), length 23cm x diameter 7cm (arrow), (handle part thickness 2.9cm)
Material	Nylon cloth (target fabric), EVA sponge (contents, pedestal, arrow), hook-and-loop fastener (arrow tip)
Weight	1.9kg (1 set)

▶ Doremi Furi Furi Baton

The sound is made by the air pressure caused by the movement of the weight in the baton.
If you hold the middle of the baton and shake it up and down, it will make a sound.
It can be used widely, such as music performance by several people and arm rehabilitation.

Set contents	Set of 8 Furifuri Batons
Size	Diameter 7cm x length 21.5cm (1 piece)
Material	EVA sponge, steel, ABS resin

▶ Soft Tyco (Hexagon)

It is a safe drum made of soft sponge. Both the main body and the bee are made of sponge.

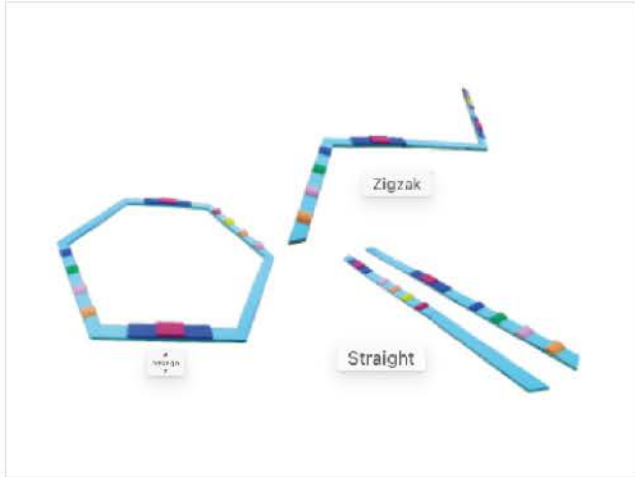

Both the main body and the bee are made of sponge. It can also be used as a cheering instrument for the sports day.

Set contents	1 large drum, 1 small drum, 4 bees, 2 large and small pedestals (assembly type)
Size	Large drum 26.5cm x 23.2cm Height 9.5cm, Small 19.8cm x 17.2cm Height 9.5cm, Be diameter 7.5cm Length 21.5cm
Material	EVA sponge PET resin (Tyco surface)

▶ Bumpy balance average

The balance average platform was made with a staircase type, a bamboo fumi type, and a flat type.

You can freely assemble it into straight, zigzag, and hexagonal.

(The joint is simply attached with the free Velcro tape on the side.)

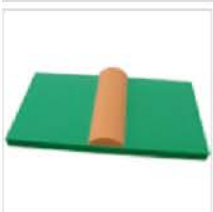

It can be easily used in various places in the room (such as a corner of the classroom).

It is also compatible with the balance average sold separately, and you can combine it to create various courses.

It is useful for developmental exercise, balance training, and functional training.

Set contents	2 stairs, 2 bamboo fumi, 2 flats, 6 in total
Size	110cm x 8.5cm x height about 6cm (the plane is about 3cm high)
Material	EVA sponge free Velcro tape
Weight	3kg (1 set)

▶ Safe balance board

It is a low-cost and less scary balanced exercise product.

Develop a sense of balance when standing according to the foot shape.

Soft and highly safe EVA material is used.

Set contents	Length 27cm x width 50cm x height 6.5cm
Size	1 unit
Material	EVA sponge (core material, wood)

※Load capacity 70kg

▶ Soft corn

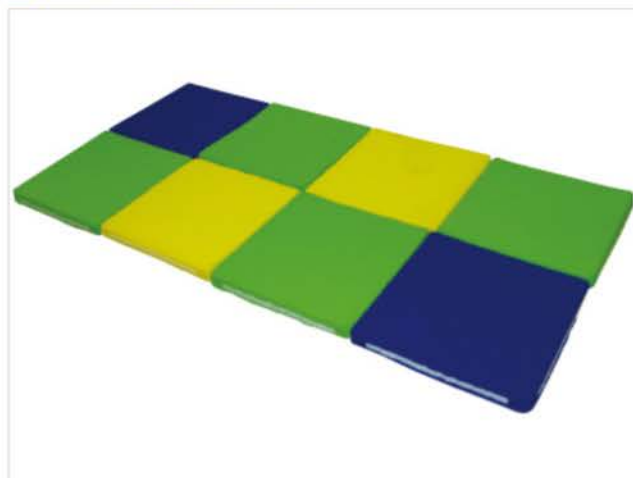

Soft hook assembly type safety cone (for indoor use) Stop the hook and use it as a color cone.

If you put it on the back, you can freely use it as a number cone.

If you remove the hook, it does not take up space and is lightweight.

Set contents	9 colors x 2 pieces each, a total of 18 pieces (number printing from 1 to 9 on one side)
Size	Diameter 13cm x height 15cm (when assembled), body thickness 0.3cm
Material	EVA sponge
Weight	18g (1 piece)

▶ Touch recognition mat

It is a free combination mat that can be enjoyed in various touches.

The side can be attached with a hook-and-loop fastener to assemble freely.

It can be used as a special needs teaching material and childcare supplies.

Set contents	1 blue sheet, 1 yellow sheet, 2 green sheets, 4 sheets in total
Size	50cm x 50cm x heat 5cm (1 sheet)
Material	High-rebound urethane foam (contents, blue), ordinary urethane foam (contents, yellow), low-rebound urethane foam (contents, green) Polyester (cover)
Weight	1.2kg (1 blue sheet), 0.52kg (1 yellow sheet), 0.57kg (1 green sheet)

▶ Soft balancer

It can also be used as a silver or rehabilitation tool to develop your child's sense of balance.

(Please take handrails, etc. to ensure safety)

Because it is made of sponge, it is less slippery to the floor surface.

Made of lightweight and highly safe EVA sponge ※Please specify the color when ordering.

The foot shape is replaced with a sponge. (It's not printing)

Set contents	1 unit
Size	Diameter 37.5cm Height 6cm
Material	Made of EVA sponge
Color	Red or blue
Weight	900 grams per piece ※Load capacity: 100kg

Soft cheese board

- It is a game in which you put a ball in a yellow ring, pull the strings on both sides well, and put the ball into the hole.
- The main body is made of a soft and safe EVA sponge.
- Train your hands and arms and develop your concentration.
- Two people take turns to put balls in the hole and line up in a row
- × It can also be used as a game.
- The ball uses a ping-pong ball.
- Right and left It can also be used as a communication game by other people pulling and cooperating with each other.

Japan Recreation Association Recommended Equipment

Set contents	1 main unit, 2 ping-pong ball stands, 6 orange ping-pong balls, 6 white balls
Size	Height 54cm, width 38cm, thickness about 4cm
Weight	2 kg
Material	EVA sponge

※It is used on the desk and on the platform.

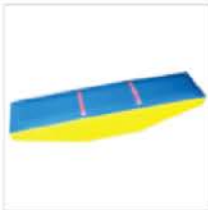

▶ Soft pastel seesaw for children

A soft and safe urethane seesaw.

The cover is a zipper type and can be replaced.

Size	110cm x 25cm x 20cm
Material	Middle material urethane foam (recycled product), core material plywood, cover nylon ox

▶ I'll connect

It is a soft ring that can be used even by infants.

You can connect the rings together to make a leaf-like one.

It can also be used as a fingertip training and rehabilitation equipment.

Set contents	Large rings 7 colors x 3 pieces, small rings 7 colors x 3 pieces, a total of 42 pieces
Size	Large ring diameter 12.5cm thickness 1.5cm, small ring diameter 8cm thickness 1.5cm
Material	EVA sponge
